

Safety Matters

Book a safety value survey with Brady and evaluate 5 safety areas

1. Lockout Tagout Survey

Operational concerns:

- OSHA 1910.147
- Employee turnover
- Hazardous Energy Control Program change management

You can look for:

- Disorganized lockout cabinets, boards, kits and carts
- No procedures or binders near equipment

You can ask:

- Do we have machine-specific lockout procedures and do we audit them annually?
- Do our authorized employees complete annual training/competence checks?

Brady solutions:

- SafeKey padlocks, devices, kits and stations
- LINK360® software to manage program
- Safety Services: training, procedure writing, audits
- SmartCheck SMS

\$1,700 VALUE

2. Electrical Point Count Survey

Operational concerns:

- NFPA 70 arc flash labeling

You can look for:

- No field marking for electrical cabinets, bus ducts, switchgear, disconnects, MCCs
- Electrical equipment that are open or without breaker ID/36" clearing
- 3+ year training gap for authorized employees
- Breakers locked out with tape

You can ask:

- Where are you in the life cycle of your Arc Flash Risk Assessment?
- When was the last time your qualified electrical employees received the training required by OHSA?

Brady solutions:

- Breaker tagout devices, arc flash labels, S3100 printer
- Safety Services: qualified electrical worker training, modify arc flash risk assessments, recommend updates and review

\$2,000 VALUE

3. Lean/5S Visual Workplace Survey

Operational concerns:

- Waste (waste accounts for 95% of costs in non-Lean facilities)

You can look for:

- Lack of floor marking, job aids, SWPs, SOPs, tool labels/shadows
- Unmarked pipes and valves
- Lack of TPM indicators, warehouse racking, and equipment and crib ID

Brady solutions:

- Floor marking tape, stock labels, pipe markers and signs
- On-demand color printing systems

\$1,000 VALUE

4. GHS and Hazardous Material Identification Survey

Operational concerns:

- OSHA Hazard Communication

You can look for:

- Unlabeled secondary containers (GHS, NFPA or HMIS)
- Handwritten, faded labels
- Right-to-Know station with old MSDS information
- Improperly marked waste containers

You can ask:

- How do we manage secondary container ID and our SDS library?

Brady solutions:

- Durable thermal-transfer printing and labels
- Printers and SmartCheck safety software for SDS management

\$1,000 VALUE

5. Confined Space Identification Survey

Operational concerns:

- 1910.146 Permit-Required Confined Spaces Standard

You can look for:

- Storage tanks, silos and vats without confined space signage

You can ask:

- Have we done a confined space inventory report?
- Are permit and non-permit areas defined?

Brady solutions:

- Confined space labels, signs and printers
- LINK360® software to manage program
- Safety Services: hazard assessments, inventory and classification, training

\$1,000 VALUE
