

SCREW EXTRACTOR SET

PRODUCT FEATURES:

- Double-ended bit design for easy removal of damaged, stripped & rusted fasteners where standard driver bits are no longer effective.
- Three sizes of double sided bits: one side to drill, one to extract; only use in reverse.
- Impact driver rated; apply pressure with low speed when extracting.
- Extracts #4 - #14 screws and #10 - #12, 1/4" - 5/16", 5mm - 8mm bolts.
- M2 high speed steel for maximum durability on hardened screws and bolts.
