

Turn your design vision into reality.

At 3M, we value your partnership.

Our Industrial Adhesives and Tapes Solutions Seminars foster collaboration and dialogue between 3M and your engineering and management teams. We will work with you, side-by-side, to understand your design requirements and help solve your most challenging applications. When you choose to participate, you get more than in-depth application and product education; you will gain access to our global network of technical experts who share your passion for creating highly functional, innovative products that will set your company apart.

Industrial Adhesive and Tapes Solutions Seminar Topics

Prior to participating in a Solutions Seminar event, our 3M team will work with you to determine the content and presentation format that will deliver the most impactful experience for you and your team. Topics and experiences may include:

- ▶ Designing with 3M bonding solutions
- ▶ Successful industry applications
- ▶ Minimizing excessive labor and rework
- ▶ Reducing noise and vibration in your final product
- ▶ Hands-on application demonstrations
- ▶ 3M adhesive chemistries and technologies
- ▶ Adhesive automation and Finite Element Analysis (FEA)
- ▶ Other bonding and assembly topics of interest to your team

What to Expect:

- Before the event** Work with your 3M Sales Specialist to determine the Solutions Seminar date and your preferred topics and format.
- During the event** On the day of the event, bring together your design, engineering, and production teams to participate in an interactive discussion about how 3M bonding solutions can enhance your product design and improve your manufacturing process.
- After the event** The collaboration does not stop after the seminar. 3M has the knowledge, expertise, and local resources to help you bring concepts to life, and continue to work with you on your most critical applications.

If you are interested in participating in a Solutions Seminar, please contact your local 3M Sales Specialist or visit [3M.com/AssemblySolutions](https://www.3m.com/AssemblySolutions).
